EDUCATION

University of California Berkeley College of Computing, Data Science, and Society – Computer Science (Graduating May 2029)

- Minor in Data Science
 - Relevant Coursework: Structure & Interpretation of Computer Programs (CS 61A), Linear Algebra & Differential Equations (54), Computational Thinking and Social Dynamics (CDSS 94)
 - Skills: Python, NextJS, SwiftUI, Machine Learning, Data Visualization, UI/UX Design
-

EXPERIENCE

EducationUSA (United States Embassy in Mongolia) – Marketing Intern (May 2023 - August 2023)

- Led and co-launched social media campaigns generating **~80k+ impressions (16% growth from 30k to 35k in social media followers)** that promoted US higher education opportunities to students
- Coordinated with TOEFL instructors to develop a data-driven platform to streamline language lessons at Yeti Educational Academy in Ulaanbaatar, Mongolia
- Assessed effectiveness of social media outreach campaigns and identified optimization opportunities to refine digital marketing strategy; Guest speaker at the Embassy speaking on creating meaningful service to nomadic communities

INTELLECT – Developer Lead (May 2021 - March 2024)

- Led and launched iOS application (built in Swift) integrating data visualization, machine learning, and UI Kit technology, connecting nomadic Mongolian students to AI-based coursework and local educational opportunities through comprehensive mobile platform
- Coordinated with Mongolia's TOEFL office using agile methodologies to deliver accessible English and university lecture delivery to **200+** students at Yeti Educational Academy
- Awards associated: 1st place at the Congressional App Challenge UT-04 (national app-building competition sponsored by the U.S. House of Representatives)

Mission Math Utah — President (May 2021 - June 2025)

- Raised **\$17,000+** for local classrooms, math organizations, and MATHCOUNTS to strengthen youth STEM infrastructure and education across Utah
- Led 30+ members, organized and led competitions, math camps, private tutoring, and public math circle program; supervised no-questions-asked financial aid policy for **700+ participants**.

STEMBRIDGEINC — Founder & Chair (March 2023 - Present)

- Bootstrapped a federally-registered 501(c)3 nonprofit democratizing access to an AI and computer science education for women through AI works at EmpowHer Hacks (**raising \$23k+ in prizes**) and organized global mentorship program
 - Built international women's community (3000+ girls) from 12+ countries through CODIFY Podcast (1200+ social media outreach)
-

LEADERSHIP

- **National Cyberstart Scholar** — Top 1.5% scorer amongst 32k+; received \$3k scholarship to the GFACT Foundation and tested network security, hacking, and cryptography
 - **Student Spaceflight Experiments Program Honorable Mention** — 1 of 2 finalists amongst 100+ teams
 - **International Policy Public Forum Competitor**
 - **SheTech Board (Women Tech Council)** — 1 of 3 school ambassadors to 3,000+ girls across Utah; co-organized logistics of Explorer Day at State
 - **GirlsCode Mongolia (Instructor & Intern)** — Prepared computer science lessons (C++, HTML, Python, CSS, UX/UI) & taught personalized English grammar lessons at UNICEF-sponsored program to 30 selected girls from all provinces of Mongolia
-

ADDITIONAL SKILLS & INFORMATION

- **Certifications:** MIT Beaver Works Summer Institute (Autonomous Cognitive Assistant, Python Core 2023), Java 824 Utah CTE Certification
- **Recognition:** NCWIT Aspirations in Computing National Honorable Mention; National Motorola Solutions Scholarship Recipient, Science Olympiad State (2x State Champion in Astronomy), National Merit Finalist
